Please keep in mind we are a full-service Fire & EMS Department. Santa and his reindeer (our apparatus) may be summoned to calls for service before or during our trip through your community. We will make all attempts to minimize the interruptions & reschedule our preplanned Santa Runs as necessary and able, however, serving the citizens of our community who are in need is our #1 priority! Stay tuned to our company website, www.nmvfc15.org, and Facebook for updates, schedule changes and up to the minute call status. December 18th and December 19th will be used as dates for additional coverage and/or make up visits should Santa and his reindeer be held up by inclement weather or calls for service.

In an effort to maximize our time and in consideration of safety, we will most likely remain on the larger streets/courts. We encourage residents who live on more narrow courts and streets to gather as a group at the end of the intersecting roadway as you begin to hear the sirens and horns. This will alleviate us having to negotiate turning around large apparatus in tight areas, which is a dangerous practice in low light conditions.

**As always, thank you for your continued support of
the New Market District Volunteer Fire Company!**
